## Report of Superintending School Committee.

Citizens of the Town of Eaton: I herewith present to you a report of the Public schools of the town, for the year ending March 1, 1886. The schools have been for the most part, equal to those of any preceeding year. The advance has been noticeable and the general work very thorough. It has been my aim to make the schools as thorough and practicable as possible, and have tried to have the teachers carry out the idea as far as has been consisent, in every school. There has been a difference of 16 weeks between this year and last, owing to there being less money this year than usual. The teachers have been fully as able as those employed in any previous year, only two having taught for the first time, all others having had considerable experience in teaching District schools. I believe the only way to bring our schools up to a high standard, is to employ teachers only, who have had previous experience and made a record for themselves.

It is not every teacher that has a temper and government suitable to become a successful School Teacher.

Although a person may have an unlimited education, if he lack government, and the art of communication to others, he had better not enter the school-room as teacher.

The text books have been the same as last year, except that I have caused Brand's Physiology and Hygiene with reference to Alcohol and Narcotics to be taught in nearly every District.

This work has been neglected every year since the law requiring the study was passed. This book is recommended by eminent teachers and was chosen out of several others. I do not hesitate to say it is the most practical and best adapted to our public schools of any I have seen. There has also been a change lately in Copy Books, I have adopted Harper's Graded Copy

Books, by H. W. Shaylor, made the exchange with dealers, even, thereby getting a book better and cheaper for the scholars. Wishing success to all our schools in the future, I respectfully submit the above remarks, with a statistical table.

Eugene W. Hatch,

Superintending School Committee.

# STATISTICAL TABLE-

No. of District.	Terms.	Names of Teachers.	Length of School in Weeks.	Wages of Teachers per week.	Price of Board per week	No. Scholars attending school. Average attendance. Visits by Supt.	Names of Prudential Committees.
